

„Safeguarding tomorrow“: Is your project future-proof?

■ EXTINGUISHING TECHNOLOGY CHECKLIST FOR FIRE BRIGADES

PROPORTIONERS FOR FIRE TRUCKS

- Have you already switched to fluorine-free foam agents? Yes No
- Is your vehicle fitted with a foam proportioner that ensures a constant proportioning rate even during intermittent nozzle operation? Yes No
- Did you know that the DZ1000 light proportioner can be used both as a vehicle-mounted unit and as a portable unit? Yes No

PORTABLE PROPORTIONERS

- Do you have a portable foam proportioner that can be used on rough terrain close to the fire? Yes No

EXTINGUISHING MONITORS

- Is your fire engine equipped with a compact monitor capable of extinguishing fires over large areas quickly? Yes No
- Can your extinguishing monitor be removed from the vehicle and operated using a remote control? Yes No

FIGHTING FOREST FIRES

- Did you know that forest fires can be extinguished more quickly and effectively using wetting agent than with water alone? Yes No
- Do you have a portable proportioner that produces not only foam but also wetting agent? Yes No
- Do you have a compact monitor that can also extinguish large areas quickly? Yes No
